You should not necessarily draw any conclusions about the investment performance of Seligman LaSalle International Real Estate Fund (the "Fund") from the amount of this distribution or from the terms of the Fund's Distribution Policy.

The amounts and sources of distributions reported in this Notice are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes, which may include return of capital, will depend upon the Fund's investment experience during the remainder of its year and may be subject to changes based on tax regulations. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with "yield" or "income." The real estate companies, including Real Estate Investment Trusts (REITs), in which the Fund invests do not provide information about the sources of the distributions they pay to the Fund until after the end of each year. This can result in the Fund having to reclassify amounts previously included in net investment income. Accordingly, the exact amount of Fund distributions, if any, that will be in excess of net investment income for the full calendar year cannot be determined at this time.

The Fund will send you a Form 1099-DIV in early 2008 providing the information needed to complete your 2007 federal income tax return.

**Dividend Investment Planholders**

If you participate in the Dividend Investment Plan under which you are investing distributions, a statement of account is enclosed. This statement includes the number of shares credited to your account as a result of the distribution. If you have elected to receive distributions in cash, a check is enclosed.

For the purposes of determining the number of additional shares of Common Stock issuable in payment of the distribution, the investment price, for Stockholders participating in the Dividend Investment Plan, is \$18.95 per share, which was the closing market price on the New York Stock Exchange on August 24, 2007. The net asset value per share was \$20.74 on the same date.
